

Rooms in a House Puzzle

A house has four rooms arranged in a square:

The kitchen is directly north of the living room.
 The bedroom is directly east of the kitchen.
 The bathroom is directly south of the bedroom.

Write the correct room for each number:

1. kitchen
2. bedroom
3. living room
4. bathroom

Which room is directly west of the bathroom?
 living room

Odd One Out

Circle the odd one out.

1. bathroom / dining room / kitchen / living room words with "room"
2. shower / toilet / sink / bathroom room vs objects
3. stove / kitchen / bedroom / bathroom object vs rooms
4. basement / garage / attic / dining room storage rooms
5. bedroom / garden / living room / kitchen inside vs outside

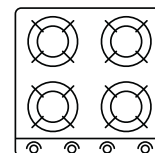

Write the room where you can find each object:

 bathroom

 bedroom

 kitchen

 living room

★ **Bonus:** Can you answer the riddle? mushroom
 What kind of room has no doors and no windows?
