

Pyramid Puzzle

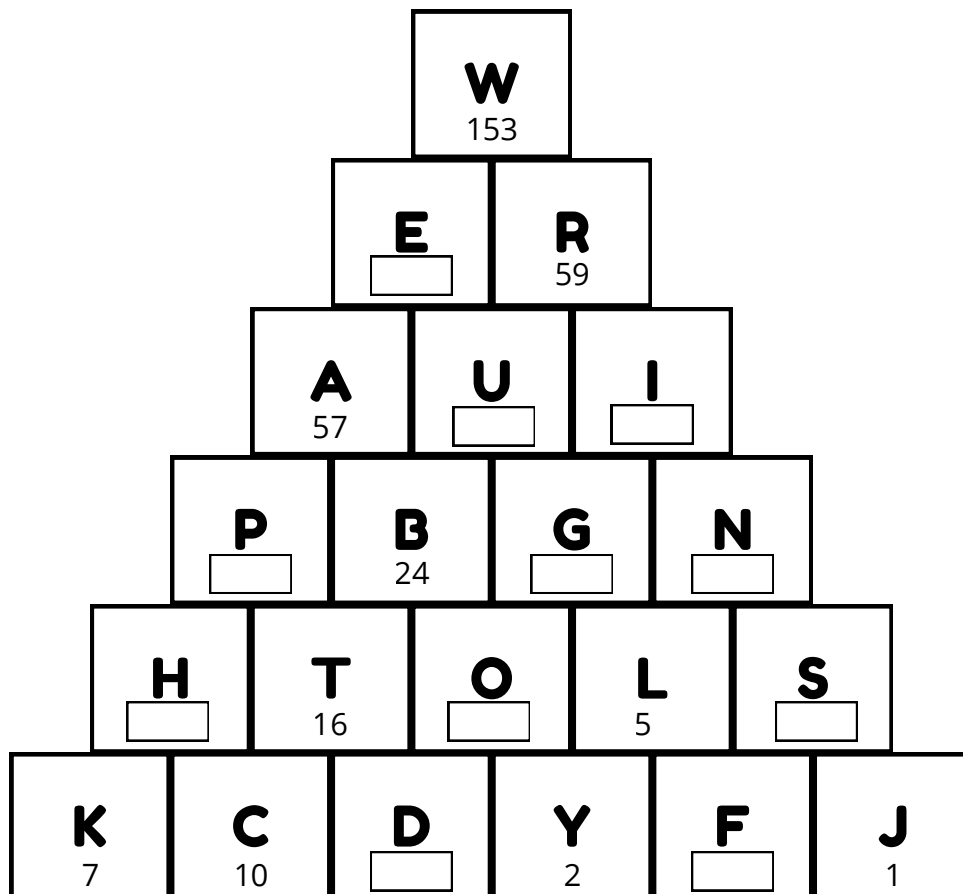

The sum of the numbers in two neighboring blocks is equal to the number in the block above them.

Write all the numbers, then use the code to reveal the hidden dialogue.

Example:

$$? = 10 - 4$$

A:

153	17	57	16	6	22	6	2	8	37	6	8	
												?
5	57	4	16	153	94	94	7	94	9	6		

B:

22	153	94	9	16	8	9	57					
												.
16	59	22	33	16	8	94	13	2	33	16
